Nicolas Beraldes Tarifa

I have experience in hospital IT support, Help Desk support for ERP and point-of-sale systems, and network infrastructure. I study Information Technology Management.

ABOUT

I study Information Technology Management at Fatec Franco da Rocha – Giuliano Cecchettini.

I worked in IT support at Instituto Alpha de Saúde Integral and in Help Desk support at Lukos Tecnologia.

I also worked on fibre-optic installation at RealFort Sistemas.

I develop personal projects and present my experience, education and work practices here. I prioritise simple, compatible and accessible solutions.

EXPERIENCE

SERVICE PROVISION

Fibre Optic Installation Assistant — RealFort Sistemas (https://realfortsistemas.com.br/)

I supported the installation and maintenance of FTTH networks and radio links. I laid drop cable, prepared SC/APC connections and assembled RJ45 connectors.

I installed and configured ONU, ONT and routers, with PPPoE, Wi-Fi and mesh networks.

I measured optical power with a power meter and identified fibres with a VFL. I supported OTDR diagnostics.

I performed fusion splicing as a learner. I organised materials and checked the work with the technical base.

SEPTEMBER 2025 – DECEMBER 2025 · SÃO PAULO, BRAZIL

Help Desk Support Technician — Lukos Tecnologia (https://lukos.com.br/)

I provided L1 support for enterprise resource planning (ERP) and point-of-sale (POS) system users. I resolved incidents and escalated tickets to other support levels.

I configured systems according to customer requirements and needs.

I processed and analysed NF-e and NFC-e, Brazilian electronic invoices. I checked data integrity and identified inconsistencies.

APRIL 2023 – JUNE 2024 · SÃO PAULO, BRAZIL

IT Support Technician — Instituto Alpha de Saúde Integral (https://alphainstituto.com.br/)

I provided L1 and L2 support for hospital systems. I diagnosed, resolved and tracked incidents.

I performed preventive and corrective maintenance on desktop computers, laptops and peripherals. I installed, configured and maintained printers.

I wrote technical documentation, user manuals and standard operating procedures (SOPs). I guided users.

I managed and organised IT assets.

JOINT PROJECT · DIGITAL MARKET IN PORTUGAL

Optigrow

This is my first joint project with my business partner and friend Rodrigo Nascimento. We studied the digital market in Portugal. Rodrigo mainly handled development.

The site presents marketing and technology services for opticians in the Porto area. It includes service information and a contact form.

ACADEMIC PROJECT · MINIMUM VIABLE PRODUCT (MVP) IN DEVELOPMENT

SGCS — Sistema de Gestão de Chamados para Síndicos

Our team develops the academic research and application at Fatec Franco da Rocha. The application records, classifies and tracks service requests in residential buildings.

I am the manager responsible for the project. I administer Trello, manage the team and track deliverables.
